USING TWO-UNDER OVERCALLS FOR ONE OR BOTH MAJORS, OR FOR ONE OR BOTH MINORS

Author Ken Rexford has developed an intriguing new approach to overcalling INT openings that may revolutionize this area of bridge. If you are unhappy with Cappelletti, DONT, Brozel, and the like, this book introduces you to a new approach for tackling the opponent's INT opening, with an entirely new way to handle one or two-suited hands. Can your current approach tell partner whether you have a strong or a weak overcall at the two-level? Can you tell partner which suit of your major-or-a-minor is longer? Can you identify the specific minor with your major, again at the two-level? All of these are possible using Ken Rexford's methods. Imagine describing more hands than the Woolsey defense handles, all with easy but novel methods that fit (unlike Woolsey) into the ACBL's General Convention Chart!

You can also use these methods to improve your response structure to your own openings and in other auctions. For example, after a Four Diamond overcall of partner's Two Clubs opening, you can bid any new suit as a natural one-suiter, use double as cooperative, and yet still have the room needed to describe any specific two-suiter, without bypassing the game level. Impossible? Not with this new technique. Can you show one or both minors and slam interest after a 2NT opening, and tell partner which specific minor you have, at the three-level? Yes, using Rexford's methods.

KEN REXFORD (Ohio) is a bridge player with 30 years of tournament experience. His first book, *Cuebidding at Bridge*, introduced the bridge world to a modern approach to Italian cuebidding. His most recent books for Master Point Press are *Modified Italian Canapé System* and *New Frontiers for Strong Forcing Openings*.
