This is the fifth (and according to the author, the very last – but don't hold your breath!) edition of what is acknowledged to be the definitive book on a convention used by every serious player. Completely revised and updated from its previous version, this edition contains even more leading-edge ideas, and is full of examples, quizzes and practice hands. A must for the tournament player.

Features include:

- Why you should play 1430 *and* 3014 RKB responses, and when
- The extensions of RKB: the queen-ask, the specific king-ask, and more
- How to handle voids, as asker or responder
- RKB in minor-suit auctions
- 60 practice hands for you to bid with your favorite partner
- and many more

This is the only book that explains every facet of one of the most popular conventions in modern bridge.
